## MISSION STATEMENT

The objective of the AIA TRUST shall be to promote the welfare of animals, to strengthen the human-animal bond, to preserve genetic diversity, to ensure that the use of renewable resources is sustainable and to safeguard the rights and interests of responsible animal owners and professionals through research, public education and the development of sound public policy.

## WHAT IS THE AIA?

The ANIMAL INTEREST ALLIANCE is a registered TRUST that is comprised of voluntary members under the leadership of the AIA TRUSTEES, who all share a common denominator interest viz. a strong passion for animals. The AIA was formed in 2006 by a group of concerned individuals in response to a radical draft policy published by Ezemvelo KZN Wildlife that would severely restrict or ban the keeping by hobbyist and/or commercial breeding or use of for entertainment or film purposes any animals other than domestic animals such as dogs and cows.

## WHO ARE THE AIA MEMBERS?

Anyone who supports the cause of the AIA may become a member and may live anywhere in South Africa or in another country. Our members include pet owners, animal clubs, breeders, trainers, veterinarians, nurses, doctors, research scientists, attorneys, farmers, fishermen, entrepreneurs, hunters, teachers, wildlife biologists, accountants, architects, businessmen & women. The membership roster of the AIA Trust includes some of South Africa's most respected animal professionals, advocates and enthusiasts.

## AIA ANIMAL STANDARDS

The AIA will not tolerate or condone cruelty to animals. On the contrary, the AIA supports high standards of animal keeping and actively collaborate with colleagues in development and implementation of norms and standards in the various industries. Substandard conditions will not be tolerated.

## AIA IN THE FUTURE

While the AIA is currently involved in fighting the EKZNW ex situ wild animal draft policy as well as the primate draft policy, members feel that when this matter is finally resolved, there will be other issues of importance for the AIA to be involved with. Therefore the AIA sees a strong future for itself and its role in assisting and protecting the rights of those that share a passion for animals and align themselves with the aims and objectives of the AIA.
